

SCHOOL GOVERNANCE CONFERENCE – 2009

Conference Theme

'Shaping Good Governance in the Interests of Learners'

Conference Objectives

The main objectives of the conference are to:

- raise the profile of school governance and how good governance relates to school performance and educational outcomes;
- recognise the valuable voluntary contribution which governors make to the public education system;
- provide governors with access to information from senior officials about education issues that impact on schools;
- develop communication between school governors and senior officials in the Department and other relevant support agencies on major issues affecting schools;
- provide governors with access to some specialised training aimed at developing awareness of personal management skills.
