# **BUILDING HANDBOOK**

## **Section 4**

### **SECONDARY SCHOOLS (INCLUDING GRAMMAR SCHOOLS)**

#### **GENERAL NOTES ON THE APPLICATION OF THE BUILDING HANDBOOK**

1. Particular attention is drawn to Part 2 of this section.
2. The School Premises Regulations and DfES Building Bulletins do not apply directly to Northern Ireland schools; however, they serve as a good reference to define satisfactory provision for acoustics, heating, ventilation, lighting and related services.
3. The number of electrical socket outlets specified in every part of the Building Handbook are summarised in Schedule “A” of Part 12 ICT. When there is a variation, Schedule “A” takes precedence.
